**ESHIPPERS MANAGEMENT LTD.**  
NOTES TO THE CONDENSED INTERIM FINANCIAL STATEMENTS  
(Expressed in Canadian Dollars)  
(Unaudited)  
NINE MONTH PERIOD ENDED FEBRUARY 29, 2020

---

**1. NATURE OF OPERATIONS AND GOING CONCERN**

eShippers Management Ltd. ("the Company") was incorporated on August 4, 1992 under the laws of British Columbia. The Company's head office and registered and records office is Suite 203 – 20171 92A Avenue, Langley, B.C., V1M 3A5, Canada. The Company's shares are listed on the NEX board of the TSX Venture Exchange (the "Exchange").

The Company is a mineral exploration company focused on acquiring, exploring and developing exploration and evaluation assets. Currently, the Company is investigating new opportunities for the acquisition of exploration and evaluation assets and investment ventures.

These condensed interim financial statements have been prepared assuming the Company will continue on a going-concern basis. The Company has incurred losses since its inception and the ability of the Company to continue as a going concern depends upon its ability to raise adequate financing and to develop profitable operations. These condensed interim financial statements do not include adjustments to amounts and classifications of assets and liabilities that might be necessary should the Company be unable to continue operations. Management estimates that the Company currently has adequate capital to operate for the coming year.

**2. BASIS OF PRESENTATION**

**Statement of compliance**

These condensed interim financial statements, including comparatives, have been prepared in accordance with IAS 34, Interim Financial Reporting, as issued by the International Accounting Standards Board ("IASB") and the interpretations of the IFRS Interpretations committee. They do not include all disclosures required by International Financial Reporting Standards ("IFRS") for annual financial statements, and therefore should be read in conjunction with the Company's audited financial statements for the year ended May 31, 2019, prepared in accordance with IFRS as issued by the IASB.

These financial statements were approved by the Board of Directors of the Company on March 17, 2020.

**Basis of presentation**

These condensed interim financial statements have been prepared on a historical cost basis, using the accrual basis of accounting, except for cash flow information.

**Functional and presentation currency**

These condensed interim financial statements are presented in Canadian dollars, unless otherwise noted, which is the functional currency of the Company.

**ESHIPPERS MANAGEMENT LTD.**  
NOTES TO THE CONDENSED INTERIM FINANCIAL STATEMENTS  
(Expressed in Canadian Dollars)  
(Unaudited)  
NINE MONTH PERIOD ENDED FEBRUARY 29, 2020

---

**2. BASIS OF PRESENTATION** (continued)

**Use of Estimates and Judgments**

The preparation of these financial statements requires management to make certain estimates, judgments and assumptions that affect the reported amounts of assets and liabilities as at the date of the financial statements. Estimates and assumptions are continually evaluated and are based on management's experience and other facts and circumstances. Actual results could differ from these estimates.

The significant assumption about the future and other sources of estimation uncertainty that management has made at the end of the reporting period, that could result in a material adjustment to the carrying amounts of assets and liabilities in the event that actual results differ from assumptions made, relates to, but is not limited to, the following:

Deferred income taxes

The determination of income tax is inherently complex and requires making certain estimates and assumptions about future events. Deferred tax assets, including those arising from tax losses, require management to assess the likelihood that the Company will generate taxable earnings in future periods, in order to utilize recognized deferred tax assets. Estimates of future taxable income are based on forecast cash flows from operations and the application of existing tax laws in each jurisdiction. To the extent that future cash flows and taxable income differ significantly from estimates, the ability of the Company to realize the net deferred tax assets recorded at the date of the statement of financial position could be impacted. The Company has adequately provided for all income tax obligations; however, changes in facts and circumstances as a result of income tax audits, reassessments, jurisprudence and any new legislation may result in an increase or decrease in the Company's provision for deferred income taxes.

There were no significant judgments made by management for the reporting period.

**3. SIGNIFICANT ACCOUNTING POLICIES**

These condensed interim consolidated financial statements have been prepared using the same accounting policies as those used in the Company's annual financial statements at May 31, 2019 with the exception of the newly adopted standards noted below.

During the period ended February 29, 2020, the Company adopted the following accounting standards:

*IFRS 16, Leases*

IFRS 16 is effective for annual periods beginning on or after January 1, 2019. This new standard replaces the existing leasing guidance in IAS 17, Leases.

IFRS 16 distinguishes between leases and service contracts on the basis of whether the customer controls the asset being leased. For those contracts determined to meet the definition of a lease, IFRS 16 requires a lessee to recognize on the balance sheet a lease asset along with the associated lease liability which reflects future lease payments, similar to current finance lease accounting. There are limited exceptions for leases with a term of less than 12 months or leases of assets which have a very low value. As a result of the adoption of IFRS 16, operating leases which were previously only recognized on the statement of loss will be recognized on the statement of financial position.

There was no impact on the Company's financial statements from the adoption of this standard.

**ESHIPPERS MANAGEMENT LTD.**

**4. ACCOUNTS PAYABLE AND ACCRUED LIABILITIES**

	<b>February 29, 2020</b>	<b>May 31, 2019</b>
	<b>(\$)</b>	<b>(\$)</b>
Trade payables	5,026	177
Accrued liabilities	8,400	9,170
<b>Total</b>	<b>13,426</b>	<b>9,347</b>

**5. SHARE CAPITAL**

**a) Authorized share capital**

Unlimited common shares without par value.

**b) Issued share capital**

Nine month period ended February 29, 2020

There was no share capital activity.

Year ended May 31, 2019

There was no share capital activity.

**c) Stock options**

The Company has a shareholder approved stock option plan (the "Plan"), which is in compliance with the Exchange's policies. Under the Plan the maximum number of shares reserved for issuance may not exceed 10% of the total number of issued and outstanding common shares at the time of grant of options. The exercise price of each stock option shall not be less than the market price of the Company's stock at the date of grant. Vesting terms are at the discretion of the directors.

There were no stock options issued or outstanding during the nine month period ended February 29, 2020 or the year ended May 31, 2019.

**d) Share purchase warrants**

There were no share purchase warrants issued or outstanding during the nine month period ended February 29, 2020 or the year ended May 31, 2019.

**6. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT**

*Financial risk management*

Financial instruments measured at fair value are classified into one of three levels in the fair value hierarchy according to the relative reliability of the inputs used to estimate the fair values. The three levels of the fair value hierarchy are:

- Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities;
- Level 2 – Inputs other than quoted prices that are observable for the asset or liability either directly or indirectly; and
- Level 3 – Inputs that are not based on observable market data.

The Board of Directors has overall responsibility for the establishment and oversight of the Company's risk management framework. The Company's financial instruments consist of cash, accounts payable and accrued liabilities.

The fair value of cash is measured using level one of the fair value hierarchy. The fair values of accounts payable and accrued liabilities approximate their book values because of the short-term nature of these instruments.

*Financial instrument risk exposure*

The Company is exposed in varying degrees to a variety of financial instrument-related risks. The Board approves and monitors the risk management processes.

*Credit risk*

Credit risk is the risk of financial loss to the Company if a counterparty to a financial instrument fails to meet its payment obligations. The Company has no material counterparties to its financial instruments. The Company manages credit risk for cash by ensuring that these financial assets are placed with a major financial institution with strong investment grade ratings by a primary ratings agency. The Company's receivables consist of goods and services tax due from the Canada Revenue Agency. The Company does not believe it has a material exposure to credit risk.

*Liquidity risk*

The Company seeks to ensure that there is sufficient capital in order to meet short-term business requirements, after taking into account the Company's holdings of cash. The Company's cash is invested in business accounts and a redeemable guaranteed investment certificate ("GIC"), which are available on demand. As at the balance sheet date, the Company had sufficient cash to meet its current obligations and was not exposed to significant liquidity risk.

*Interest rate risk*

The Company is exposed to interest rate risk in that it holds a variable rate redeemable GIC. The Company does not have any variable interest rate liabilities.

**6. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT** (continued)

*Currency risk*

The Company is not exposed to significant foreign currency risk.

*Commodity price risk*

The Company is not significantly exposed to price risk with respect to commodity and equity prices. Equity price risk is defined as the potential adverse impact on the Company's earnings due to movements in individual equity prices or general movements in the level of the stock market. Commodity price risk is defined as the potential adverse impact on earnings and economic value due to commodity price movements and volatilities. The Company closely monitors commodity prices of precious and base metals, individual equity movements and the stock market to determine the appropriate course of action to be taken by the Company. Fluctuations in pricing may be significant.

**7. MANAGEMENT OF CAPITAL**

The Company manages its common shares, stock options and share purchase warrants as capital. The Company's objectives when managing capital are to safeguard the Company's ability to continue as a going concern in order to pursue the acquisition and/or development of exploration and evaluation assets and to maintain a flexible capital structure which optimizes the cost of capital at an acceptable risk. The Company is not subject to any externally imposed capital requirements.

The Company manages the capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. To maintain or adjust the capital structure, the Company may issue new shares, issue debt or acquire and/or dispose of assets.

In order to facilitate the management of its capital requirements, the Company prepares expenditure budgets that are updated as necessary depending on various factors, including successful capital deployment and general industry conditions.

In order to maximize ongoing exploration efforts, the Company does not pay out dividends. The Company's investment policy is to keep its cash treasury invested in demand certificates of deposit with major financial institutions.

There have been no changes to the Company's approach to capital management during the nine month period ended February 29, 2020.

**8. RELATED PARTY TRANSACTIONS**

There were no related party transactions during the nine month periods ended February 29, 2020 and February 28, 2019. Furthermore, there were no amounts owing to related parties as at February 29, 2020 or May 31, 2019.

**9. SEGMENTED INFORMATION**

The Company operates in one business segment, being the acquisition and exploration of mineral exploration and evaluation assets in Canada.
